Acknowledgements

This Environmental Impact Assessment Report (EIAR) has been prepared with inputs from the following team members:

Roughan & O'Donovan – AECOM Alliance

Team Leaders, Report Authors and Development Designers

Mid-West National Roads Design Office

Overall Project Management

Roughan & O'Donovan – AECOM Alliance

Population

Corporate Health Ireland

Human Health

EirEco Environmental Consultants

Biodiversity

Bat Eco Services

Biodiversity

BEC Environmental

Biodiversity

John Lusby Consulting

Biodiversity

Roughan & O'Donovan – AECOM Alliance

Soils, Geology, Hydrology and Hydrogeology

Murray and Associates

AWN Consulting Ltd

Noise, Vibration, Air Quality and Climate

Irish Archaeological Consultancy

Archaeology, Architecture and Cultural Heritage

John Bligh & Associates

Material Assets and Land: Agriculture and Non-Agriculture

TABLE OF CONTENTS

Environmental Impact Assessment Report Volume 2 Main Text

Non-Technical Summary

Chapter 1 Introduction

1.1	Introduction to this Document.....	1/2
1.2	Requirement for Environmental Impact Assessment	1/2
1.3	Background and Context.....	1/4
1.4	Environmental Impact Assessment Guidelines.....	1/13
1.5	Non-Statutory EIA Scoping.....	1/14
1.6	Pre-Application Consultations with An Bord Pleanála.....	1/14
1.7	EIAR Contributors	1/14
1.8	EIAR Structure	1/15
1.9	Natura Impact Statement.....	1/15

Chapter 2 Policy Context and Need for the Proposed Road Development

2.1	Introduction	2/1
2.2	Policy Background.....	2/1
2.3	Associated Studies.....	2/33
2.4	Existing Road Network	2/33
2.5	Need for the Proposed Road Development.....	2/43
2.6	Objectives of the Proposed Road Development	2/44

Chapter 3 Alternatives Considered

3.1	Introduction	3/1
3.2	Legislative Requirements	3/1
3.3	Project Appraisal Guidelines	3/1
3.4	Project Background for Investment Options Considered	3/6
3.5	Study Area and Constraints Study.....	3/7
3.6	Route Selection Process	3/13
3.7	Definition of Route Corridors	3/14
3.8	Confirmation of the Preferred Route Corridor	3/38
3.9	Route Development.....	3/41
3.10	Consultations	3/99

Chapter 4 Description of the Proposed Road Development

4.1	Introduction	4/1
4.2	Design Standards.....	4/9
4.3	Proposed Road Development Cross-Section	4/9
4.4	Design Parameters for the Mainline of the Proposed Road Development ..	4/10
4.5	Mainline Alignment.....	4/12
4.6	Side Roads	4/52
4.7	Junctions.....	4/53
4.8	Pedestrian and Cyclist Facilities	4/54
4.9	Outline Summary of Bridge Structures	4/57
4.10	Road Drainage	4/68
4.11	Earthworks and Pavement	4/79

4.12	Fencing and Safety Barriers	4/83
4.13	Signing and Lighting	4/84
4.14	Utilities / Services	4/85
4.15	Land Acquisition	4/93
4.16	Construction	4/94
Chapter 5	Traffic Analysis	
5.1	Introduction	5/1
5.2	Traffic Modelling Overview	5/2
5.3	Data Collection	5/3
5.4	Base Year Traffic Modelling (2017)	5/9
5.5	Future Year Traffic Models (2024 & 2039).....	5/10
5.6	Predicted Impacts	5/14
5.7	Safety Benefits.....	5/25
5.8	Journey Time Benefits.....	5/26
5.9	Economic Assessment	5/28
5.10	Impact of Not Progressing with the Proposed Road Development.....	5/28
Chapter 6	Population and Human Health	
6.1	Introduction	6/1
6.2	Population Assessment Methodology.....	6/2
6.3	Description of Receiving Environment for Population	6/9
6.4	Predicted Impacts on Population	6/19
6.5	Human Health Impact Assessment – Methodology	6/23
6.6	Human Health Impact Assessment	6/28
6.7	Predicted Impacts on Human Health	6/44
6.8	Mitigation Measures for Population & Human Health.....	6/52
6.9	Residual Impacts for Population & Human Health	6/53
6.10	Difficulties Encountered.....	6/53
6.11	Interactions and Cumulative Impacts.....	6/53
6.12	Summary of Impacts for Population & Human Health.....	6/54
6.13	References.....	6/54
Chapter 7	Biodiversity	
7.1	Introduction	7/1
7.2	Methodology.....	7/1
7.3	Description of the Receiving Environment for Biodiversity	7/11
7.4	Description of Predicted Impacts for Biodiversity	7/62
7.5	Mitigation and Monitoring Measures for Biodiversity.....	7/89
7.6	Residual Impacts for Biodiversity.....	7/124
7.7	Difficulties Encountered.....	7/125
7.8	References.....	7/125
Chapter 8	Soils and Geology	
8.1	Introduction	8/1
8.2	Methodology.....	8/1
8.3	Existing Environment for Soils & Geology	8/5
8.4	Predicted Impacts for Soils & Geology	8/6
8.5	Mitigation Measures for Soils & Geology	8/9
8.6	Residual Impacts for Soils & Geology.....	8/9

Chapter 9 Hydrogeology

9.1	Introduction	9/1
9.2	Methodology.....	9/1
9.3	Receiving Environment for Hydrogeology.....	9/6
9.4	Potential Impact Assessment for Hydrogeology	9/22
9.5	Proposed Mitigation Measures for Hydrogeology	9/47
9.6	Residual Impacts for Hydrogeology	9/54

Chapter 10 Hydrology

10.1	Introduction	10/1
10.2	Methodology.....	10/1
10.3	Existing Environment for Hydrology.....	10/4
10.4	Impact Assessment for Hydrology	10/12
10.5	Mitigation Measures for Hydrology	10/25
10.6	Residual Impacts.....	10/28

Chapter 11 The Landscape

11.1	Introduction	11/1
11.2	Methodology.....	11/1
11.3	Description of Receiving Environment.....	11/6
11.4	Description of Predicted Impacts	11/11
11.5	Mitigation & Monitoring Measures	11/25
11.6	Residual Impacts.....	11/63
11.7	Difficulties Encountered.....	11/65
11.8	References.....	11/65

Chapter 12 Noise and Vibration

12.1.	Introduction	12/1
12.2.	Methodology.....	12/1
12.3.	Description of Receiving Environment.....	12/7
12.4.	Predicted Impacts for Noise & Vibration	12/14
12.5.	Mitigation and Monitoring Measures.....	12/33
12.6.	Residual Impacts for Noise and Vibration.....	12/42
12.7.	Difficulties Encountered.....	12/48
12.8.	References.....	12/49

Chapter 13 Air Quality and Climate

13.1	Introduction	13/1
13.2	Background Information	13/1
13.3	Assessment Methodology	13/3
13.4	Description of Receiving Environment.....	13/9
13.5	Predicted Impacts for Air Quality and Climate	13/17
13.6	Mitigation Measures	13/33
13.7	Residual Impacts.....	13/36
13.8	Difficulties Encountered.....	13/36
13.9	References.....	13/37

Chapter 14 Archaeology, Architecture and Cultural Heritage

14.1	Introduction	14/1
14.2	Methodology.....	14/1
14.3	Description of Receiving Environment.....	14/9

14.4	Construction Impacts.....	14/48
14.5	Operational Impacts	14/64
14.6	Mitigation and Monitoring Measures	14/76
14.7	Residual Impacts.....	14/78
14.7	Difficulties Encountered.....	14/78
14.8	References.....	14/78
Chapter 15 Material Assets and Land – Agriculture		
15.1	Introduction	15/1
15.2	Methodology.....	15/1
15.3	Description of Existing Environment for Agriculture	15/7
15.4	Description of Likely Impacts on Agricultural Land	15/10
15.5	Mitigation Measures for Agriculture	15/40
15.6	Construction Impacts and Mitigation Measures for Agriculture	15/42
15.7	Residual Impacts for Agriculture.....	15/43
Chapter 16 Material Assets and Land – Non-Agriculture		
16.1	Introduction	16/1
16.2	Methodology.....	16/1
16.3	Description of Existing Environment for Property.....	16/4
16.4	Description of Likely Impacts for Property	16/4
16.5	Mitigation Measures for Non-Agricultural Property.....	16/11
16.6	Construction Impacts and Mitigation Measures for Non-Agricultural Property	16/12
16.7	Residual Impacts for Property	16/13
Chapter 17 Interactions and Cumulative Effects		
17.1	Introduction	17/1
17.2	Methodology.....	17/1
17.3	Interactions	17/2
17.4	Cumulative Impacts.....	17/11
17.5	Additional Mitigation Measures.....	17/20
17.6	Residual Impacts.....	17/20
17.7	Conclusion	17/20
Chapter 18 Major Accidents and Natural Disasters		
18.1	Introduction	18/1
18.2	Methodology.....	18/2
18.3	Assessment of Impacts	18/3
18.4	Seveso Sites	18/14
18.5	References.....	18/18
Chapter 19 Mitigation and Monitoring Measures		
19.1	Introduction	19/1
19.2	General Commitments	19/2
19.3	Mitigation and Monitoring Measures for Traffic and Transport	19/11
19.4	Mitigation and Monitoring Measures for Population and Human Health....	19/12
19.5	Mitigation and Monitoring Measures for Biodiversity.....	19/13
19.6	Mitigation and Monitoring Measures for Soils & Geology.....	19/41
19.7	Mitigation and Monitoring Measures for Hydrogeology	19/42
19.8	Mitigation and Monitoring Measures for Hydrology	19/49

19.9	Mitigation and Monitoring Measures for The Landscape	19/55
19.10	Mitigation and Monitoring Measures for Noise & Vibration.....	19/66
19.11	Mitigation and Monitoring Measures for Air Quality & Climate	19/75
19.12	Mitigation and Monitoring Measures for Archaeology, Architecture & Cultural Heritage	19/76
19.13	Mitigation and Monitoring Measures for Material Assets and Land – Agriculture.....	19/79
19.14	Mitigation and Monitoring Measures for Material Assets and Land – Non- Agriculture	19/86
19.15	Mitigation and Monitoring Measures for Major Accidents and Natural Disasters	19/88
